**Subject:** RE: Working draft schedule for Anaconda Yerington Mine Site

Dave,

Thank you for providing this. I believe this will answer questions for folks involved while helping us plan our next steps.

I have been including Tribal Council in my updates.

Cynthia

**Subject:** Working draft schedule for Anaconda Yerington Mine Site

Ginny, Cynthia,

I was talking with Dietrick today and he asked if there was master schedule for the site.

EPA has been working on a draft schedule for use as a planning tool.

The schedule will be periodically updated.

I've attached the current version and hope it will be helpful to you in your planning under our Superfund Cooperative Agreements.

Please let me know if you have any questions or comments.

Thanks,

David A. Seter, P.E.
